OVERVIEW

Join us for the Advanced Practice Provider Fall Pharmacology Conference!

The conference will close the gap in pharmacological care for advanced practice providers managing diseases and symptoms in a constantly changing healthcare environment.

TARGET AUDIENCE

This educational activity is intended for advanced practice nurses.

OBJECTIVES

- » Recognize and differentiate among pharmacological options for treating depression and anxiety, including safe application of combination therapies and cross-tapering strategies.
- » Incorporate the short-term use of PRN medications when initiating SSRIs/SNRIs for anxiety management.
- » Identify appropriate referral criteria and processes for accessing Psychiatry and Psychology resources within the Cleveland Clinic system.
- » Discuss the pathophysiology of asthma and align treatment interventions with therapeutic goals to improve patient outcomes.
- » Review the mechanism of action of diuretics and explore the clinical use of different diuretic classes in various care settings.
- » Examine current guidelines and pharmacologic treatments related to the diagnosis and management of osteoporosis.
